

10th International Festival of Town Pipers

Info Bulletin

1

Dear friends,

Will we meet again?

The 10th International festival of Town Pipers is planned and will take place in 2024, September 6-8th in The Netherlands. De Stadspijpers of 's-Hertogenbosch are your hosts and we hope to have more musicians at the festival then ever before.

Recently we started to setup the frame work and we are looking for opportunities to make it the best festival ever. Why? It will be the 10th festival, of which the first edition was 20 years ago and organised by De Stadspijpers, who will celebrate their 40th anniversary. How many reasons more do we need?

For an International Festival we need participants. You!
We understand that 2024 looks far away but some things cannot wait too long. So, we would very much appreciate to hear from you, if you have the intention to come over to us?

Just let us know at info@stadspijpers.nl with any of the next answers:

- Yes, we will
- No, we will not
- Yes but depending on.....

Any indication about the number of people that possibly will come, will make us even more happy. Please, don't forget the name of your group.

Keep in mind that it is not yet a definite answer. No obligations so far. The real subscription will come in the near future

We started enthusiastically and hopefully you will encourage us even more with your answer.

On behalf of
De Stadspijpers van 's-Hertogenbosch
